Professional Summary

Software Engineer with 3+ years of experience delivering enterprise and product-grade applications using C#, .NET Core, Azure, SQL Server, and React. Hands-on experience in backend development, secure REST APIs, cloud-native services, CI/CD pipelines, and Agile delivery across client-facing environments. Strong expertise in building scalable and maintainable systems using Entity Framework Core, Redis for caching, and RabbitMQ for asynchronous messaging. Proven ability to work across cross-functional teams to design, develop, and deploy high-performance applications.

Technical Skills

Programming: C#, JavaScript, TypeScript, HTML, CSS.

Backend: .NET Core, Entity Framework Core, SQL Server, Redis, RabbitMQ, NodeJS, ExpressJS.

Frontend: React.js, Next.js, Vue.js, Redux, Tailwind CSS.

Cloud & DevOps: Azure Functions, Application Insights.

Databases: SQL Server, MongoDB (Mongoose).

Tools and Technology: Visual Studio Code, Visual Studio, Postman.

Version Control and Collaboration: Git, GitHub, Agile Development (Jira), Trello, NPM.

Experience

Software Engineer - Codinova Technologies, Noida

DEC 2023 – PRESENT

- Designed, and maintained a large-scale Planday integration within the Zenegy product, leveraging **AngularJS**, **.NET (Entity Framework)**, **SQL Server**, **Azure Functions**, **RabbitMQ**, and **Redis** to enable reliable data synchronization, improve system performance, and support scalable asynchronous processing.
- Developed CMS functionality for Iknow (Sweden) by developing scalable backend services with **.NET (Entity Framework)** and optimizing frontend workflows using **VueJS**.
- Built responsive web applications for Holibob (UK travel platform) using **React.js** and **Node.js (Express)**, improving user engagement and performance.
- Architected and contributed to a monorepo-based system (SYU project) using **TurboRepo**, **Next.js**, and **Tailwind CSS**, integrating **PayloadCMS** and **MongoDB** for scalable content management solutions.

Software Engineer - Phratry Technology, Noida

JAN 2023 – DEC 2023

- Front-End Development:** Designed and implemented highly interactive, responsive, and visually appealing user interfaces using **React.js**, enhancing overall user experience and performance.
- Back-End Development:** Built server-side applications with **Node.js** and **Express.js**, developing secure **RESTful APIs** and managing data processing and business logic. Utilized **MongoDB** for efficient data storage, retrieval, and management, ensuring high performance and data integrity across applications.
- Integration of Latest Technologies:** I integrated modern technologies and tools like **Tailwind CSS** and **Material UI** to enhance the aesthetics and responsiveness of the web applications, providing a superior user experience.

Education

Bachelor of Technology (B.Tech) AUG 2019 – MAY 2023

Maharshi Dayanand University, IN

Class 12th, CSBE Board

Holy Convent Sr. Sec. School, IN
